### Career Objective

I have 1 year of professional experience at [Sparkteach Agency\(Betopia Group\)](#) as a front-end developer in building modern, scalable web applications with React.js and Next.js. I excel at avoiding pitfalls and enjoy learning and working with new technologies.

### Skills and Technologies

**Frontend:** HTML5, CSS3, Tailwind CSS, JavaScript, TypeScript, Redux, React.js, Next.js.

**Backend:** Node.js, Express.js, MongoDB.

**Tools:** Git, GitHub, Figma, NPM, Netlify, Vercel.

### Projects:

#### Full Circle Detailing

[Live-link](#) [Github-link](#)

**Definition of the Project:** A responsive car wash service website enabling easy online booking and detailing selection. Features dynamic pricing, service displays, and contact options.

**Features:**

- Online Booking System
- Booking confirmations and reminders
- Staff can upload photos/videos of a car's condition post-service to a secure customer portal.

**Technology:** Tailwind CSS, React, Firebase, Express.js, Node.js, MongoDB, Stripe, Jwt.

#### Nexus Website

[Live-link](#) [Github-link](#)

**Definition of the Project:** Global gaming room booking platform. Gamers discover and reserve venues instantly. Hosts manage listings easily. Seamless marketplace for gaming experiences.

**Features:**

- Check availability and book time slots instantly.
- View, cancel, or reschedule bookings easily.
- Hosts can list rooms, manage bookings, and update availability.

**Technology:** Tailwind CSS, Next.js, Typescript, Redux, Stripe.

#### Facial Recognition Website

[Live-link](#) [Github-link](#)

**Definition of the Project:** AI Facial Recognition Platform, Where Guests Find Event Photos by Selfie, Organizers Manage Galleries, Sell Photos & Track Analytics.

**Features:**

- Guests upload a selfie, and AI instantly finds all their photos from the event gallery.
- Separate control panels with specific features for Admin, Organizer, Photographer & Guest.
- Real-time insights on photo views, user engagement, event performance & revenue.

**Technology:** Tailwind CSS, Next.js, Typescript, Redux, Shadcn ui.
