CAREER OBJECTIVE

Result-driven React.js & Next.js Developer with 1.4+ years of experience building scalable, high-performance web apps. Skilled in TypeScript, Redux, and modern styling frameworks — I optimize performance, simplify complex state management, and write clean, maintainable code. Passionate about delivering seamless user experiences that drive real business results.

TECHNICAL SKILLS

- **Frontend skills** : HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Redux Toolkit, RTK Query, TanStack Query, shadcn/ui, React Hook Form, Zod, Responsive Design, SEO, Web Performance Optimization.
- **Backend Basic skills** : Node.js, Express.js, MongoDB, JWT Authentication, Firebase, Mongoose.
- **Tools & Others**: Git, GitHub, Figma, Postman, VS Code, Vercel, Netlify, VPS Deployment, CI/CD, npm, Stripe Integration.
- **Language** : English (Fluent)

WORK EXPERIENCE

Frontend Developer - (Sparkteach Agency)

Dec 2024 - Mar 2026

- Developed and maintained fully responsive web applications utilizing React.js, Next.js, and TypeScript, resulting in improved user engagement.
- Integrated Redux Toolkit for efficient global state management, reducing data-fetching overhead and improving client-side state predictability.
- Implemented SSR (Server-Side Rendering) and SSG (Static Site Generation) using Next.js to boost SEO performance and reduce Initial Page Load time.
- Collaborated with team members to debug, optimize performance, and refactor legacy codebases for better maintainability.

PROJECTS :

Full Circle Detailing

[Live link - Github link](#)

- Developed a responsive car wash booking web application, integrating Stripe for secure, seamless online payments and dynamic pricing.
- Designed an automated booking confirmation and email reminder system to streamline reservation workflows.

Technologies Used: React.js, TypeScript, Redux, Tailwind CSS, Stripe API.

Nexus Website

[Live link - Github link](#)

- Engineered a global gaming room booking platform featuring real-time availability checking and slot booking.
- Implemented a host dashboard allowing users to manage listings, track bookings, and update real-time room status.

Technologies Used: Next.js, TypeScript, Redux, Tailwind CSS, Stripe.

EDUCATION :

B.Sc. in Zoology — MM Ali College, Tangail (Graduated: 2024)
