CAREER OBJECTIVE

I have 1.4 year of professional experience at [Sparkteach Agency](#) as a Front-End Developer, building modern and scalable web applications with React.js and Next.js. I am passionate about creating clean, user-friendly interfaces and continuously learning new technologies.

WORK EXPERIENCE

Frontend Developer - (Sparkteach Agency)

Dec 2024 - Mar 2026

- Worked on complete, fully responsive web applications using React.js, Next.js, Tailwind CSS, TypeScript, and Redux, including projects similar to Full Circle and Nexus.
 - Gained strong understanding of production-level development practices and continuously improved problem-solving and development skills through real-world projects.
 - Developed clear knowledge of Next.js routing systems, client-side and server-side rendering, and API integration while building scalable modern applications.
 - Maintained and improved existing applications by fixing bugs, optimizing performance, and implementing.
-
